This makes us, by over one hundred thousand barrels, Milwaukee's largest brewers, and Milwaukee, as you know is the most renowned brewing center in the world.

THIS IS HOW IT WAS DONE

For fifty years we have doubled the necessary cost of our brewing that Schlitz Beer might be pure.

We cool Schlitz Beer in plate glass rooms, and all the air that touches it comes through air filters.

We age our beer for months before we market it. That is why Schlitz Beer doesn't cause biliousness.

This Congregation to Warship at New Cathedral-Contract Has Been Awarded.

Has Been Awarded.

Now that all uncertainty of the immediate erection of the cathedral has been removed by the award of the building contract to Messrs. J. E. & A. L. Fennock, of Philadelphia, whose chief work in Richmond is the new Main-Street passenger depot, the interesting question is revived what changes will be made in the relations of the various Catholic churches of the city.

"What will become of the present cathedral?" has been asked.

So far as determined now the present edifice at Eighth and Grace, dear to somany Catholics, will become a parish church. The present episcopal residence will be the home of the pastor of the church and his assistant.

The Sucred Heart Church will be done away with altorether. Its congregation, and a part of that which now worships at Eighth and Grace, will worship at the new cathedral. Enough will remain at the old St. Peter's Cathedral to make it a strong parish. The episcopal residence will be erected either now or Jater on the lot adjoining the new Cathedral.

The edifice, which is the sift of Mr. Ryan, will cost in the neighborhood of 200 000, and two years or more will be consumed in its erection. It will be the finest church between Baltimore and New Oceans. The structure will be built of timestone with from to Virginia granite. No changes have been made in plans, which have been fully printed. No changes have been made in plans, which have been fully printed.
